

POLYMER WEEK 2025

THE NATURE OF CLAY

ANDY BELL'S CLASS

In this class, Andy will encourage you to create your own characters, guiding you through the process of transforming illustrations into tangible, posable sculptures.

You'll be working with CosClay polymer clay, which will be provided to all students. Only a few essential items need to be brought with you to help bring your character to life with charming details. All other essentials, including a working tile and wet wipes, will be ready for you on-site.

Note: Items marked with a * will be available for purchase at the venue, to make your trip to the Czech Republic easier—no need to travel with sharp tools or search for specific mediums.
